

DIBASH THAPA

+977-9846500494 ♦ Swayambhu, Kathmandu

Email: dibashthapa447@gmail.com Portfolio: <https://dibashthapa10.com.np/>

OBJECTIVE

A Flutter developer experienced in building and scaling production mobile applications, from architecture and performance optimization to CI/CD automation. Skilled in state management (Riverpod, Bloc), API integration, analytics, and deploying apps to the Play Store and App Store. Focused on writing maintainable, performant code and continuously adopting tooling that improves developer velocity.

EDUCATION

Bachelor of Engineering in Information Technology Everest Engineering College, Pokhara University	2017 - 2021
HSEB, Class XII Nepal Kasthamandap SS/College , Kathmandu	2016
SLC, Class X Shree Jyoti English Higher Secondary Boarding School, Syangja	2014

SKILLS

Languages and Frameworks	Dart, Flutter, Firebase, React Native (Basic)
State Management & Navigation	Bloc (Cubit), Riverpod, Provider, GetX, Auto Route, Go Router
UI Development	Custom Widgets, Form Validation, MediaQuery, LayoutBuilder, AspectRatio
Backend and API Integration	RESTful APIs, Dio, HTTP, GraphQL
Tools	Postman, Swagger, GitHub, GitLab, Confluence Jira, Codemagic (CI/CD)
Additional Features	Push Notifications (FCM), Deep Linking, Google Maps, Animations, Payment Gateway Integration(Google Pay, Apple Pay, eGHL, senangPay), Analytics & Attribution (Firebase Analytics, Meta App Events, AppsFlyer)

EXPERIENCE

Flutter Developer Everestwalk Groups Pvt. Ltd., Kalimati, Kathmandu.	Nov 2024-Aug 2026
- Led the development of scalable Flutter applications, ensuring high performance and maintainability. - Designed and implemented intuitive UI/UX features, improving user engagement. - Developed a standalone project integrating Google Maps for location-based services. - Utilized ObjectBox and SharedPreferences for local data management, reducing API calls and improving offline reliability. - Implemented multi-platform analytics and attribution tracking (Firebase Analytics, Meta App Events, AppsFlyer) with a unified event-logging architecture, enabling user-behavior insights across onboarding, task/habit engagement, and conversion funnels. - Profiled app performance using Flutter DevTools to identify jank, excessive widget rebuilds, and memory leaks across key screens. - Set up a complete CI/CD pipeline with Codemagic for automated Flutter builds, including free-tier configuration and automatic APK delivery via email on each build. - Published and maintained applications on the Google Play Store.	

Flutter Developer

Jul 2023-Nov 2024

Rolling Plans Pvt. Ltd., Bijulibazar, Kathmandu.

- Migrated an existing app to a newer version, ensuring seamless updates and stability.
- Implemented Firebase Cloud Messaging (FCM) to enhance user engagement through push notifications.
- Developed location-based services with Google Maps, improving navigation and data visualization.
- Integrated payment gateways such as eGHL and senangPay.
- Managed app deployment and updates on the Google Play Store and Apple App Store.

Freelance & Independent Projects

2024-Present

Self-Employed / Freelance

- Resolved complex issues and optimized app performance, reducing crashes and improving stability.
- Contributed to the development and maintenance of the Rara Foods application, enhancing user experience.
- Integrated Google Pay and Apple Pay, streamlining the payment process.
- Ensured smooth deployment, maintenance, and feature updates for scalability.

Flutter Developer Internship

Jan 2023-Apr 2023

Kush Fintech Consultants, Mid Baneshwor, Kathmandu.

- Assisted in building Flutter applications with optimized UI/UX designs.
- Integrated GraphQL APIs for efficient data retrieval and dynamic content updates.
- Developed reusable widgets and handled file/image uploads.
- Worked collaboratively with a development team to meet project deadlines.

ADDITIONAL TECHNICAL EXPERIENCE

React Native (Basic)

- Contributed to React Native applications including Alphalink and Ideabaaz Dangal.
- Fixed minor bugs and improved existing features.
- Integrated push notification services using Firebase Cloud Messaging (FCM).
- Designed and implemented UI screens based on provided specifications.

CERTIFICATIONS & TRAINING

- Flutter Bootcamp (3 Days) – TechTrix (2022)
- Introducing to Flutter Development using Dart – App Brewery (2022)
- 60 hours Click2Career Flutter Training Session – InfoDevelopers (2022)

PROJECTS

Workspace Projects

- Castin.io ([Google Play Store](#) / [App Store](#))
- My Clinic Record ([Google Play Store](#) / [App Store](#))

- Ness Global/Arctern [Google Play Store](#)
- Groease [Google Play Store](#)
- LifeOrdo ([Google Play Store](#) / [App Store](#))
- Rilox EV
- Rolling HRMS ([Google Play Store](#) / [App Store](#))
- Rolling Nexus ([Google Play Store](#) / [App Store](#))
- Bidesh-Rolling Karmashil [Google Play Store](#)
- Swadesh-Rolling Karmashil [Google Play Store](#)
- Iprofixer Provider ([Google Play Store](#) / [App Store](#))
- Iprofixer Client ([Google Play Store](#) / [App Store](#))

Freelance Projects

- Rara Foods
- MWMS-Migrant Workers
- MWMS-Employers

Personal Projects

- Todo App - [GitHub](#)
- News App - [GitHub](#)
- Movie App - [GitHub](#)
- Quiz App - [GitHub](#)
